MERITS

Adrian's natural talents and unique characteristics.

Enchanting Presence

Prerequisites: *Duskborn or vampire. At least 2 dots in Presence.*

Your presence is so enchanting that others fall willingly under your sway. Mortals you target with your Presence powers suffer a -1 dice penalty to resist them.

If you have at least 5 dots in Presence, the penalty is -2 dice instead.

If you are an Ancilla vampire or stronger, this [merit] also affects supernatural creatures.

CLAN TRAITS

Adrian's supernatural talents, inherited from his blood.

Star Magnetism

Prerequisites: *Neonate or stronger. At least 2 dots in Presence.*

You can spend 1 Willpower (in addition to the power's normal cost) when you use a Presence power to transmit that power through an electronic device. You can affect targets who are viewing or hearing you, provided they are seeing or hearing a live feed and not a recording. If the power affects only one target, you must name it, though the name can be an online name or similar identifier chosen by the target rather than the target's real name. If the power affects all targets within a specified distance, the targets are chosen at random from those viewing or hearing you, up to a maximum of 5 targets per dot you have in Presence.

Throw Voice

Prerequisites: *Neonate or stronger. At least 1 dot in Presence and 1 dot in Auspex.*

You can supernaturally project your entrancing voice to any point within Medium distance that you can see. You can spend 1 Willpower (in addition to the power's normal cost) to manifest a Presence power from that point as if you were there, allowing you to affect targets that you otherwise might not be able to affect.

NATURE

Adrian's nature, the mortal impulses at his core, and its associated outburst.

Gallant

As a Gallant, you always seek attention and the chance to be the brightest star in the room.

You seek the company of others, if only to earn their adoration. Attention drives you, and the chase is often as important as its end. Nothing excites you more than a new audience to woo.

Indulging. You hunger for attention and do anything to draw eyes. You might make a big entrance wherever you go, and you don't shy away from explaining why you are so important.

Gallant Outburst: Showstopper. Everything must be about you. While in a Gallant outburst, you can't use mental Discipline powers, and you must make everything about you. You must draw the attention of as many creatures as possible, by attacking, using a power that affects multiple creatures, or similar. You can't hide, disappear into the shadows, or speak quieter than a shout. At the start of each of your turns, choose one enemy you can see. Until the start of your next turn, that target has a dice bonus equal to twice your generation modifier on all tests to notice, attack, or engage with you.

CLAN ASPECTS

Adrian is part of the Toreador vampire clan, which comes with great power but also a curse.

Clan Beast: Idol

Your Beast desires adoration and seeks to make others enamored of your presence. You look for individuals who see you as the most fascinating person they have ever met. You satiate it by seducing others, making them beg for your attention, and drinking in their flattery.

Curse: Starved for Beauty

Your blood craves beauty above all else, making you suffer when you can perceive none of it around you. Any time you find yourself in surroundings devoid of beauty, you suffer a dice penalty equal to your generation modifier to all Power tests, your distress disrupting your ability to harness the power within you. The Storyteller is the arbiter of an environment's aesthetic affects your curse. You can try to carry beauty with you, but depending on what you bring, you risk losing it or marring it along the way.

Frenzy: Obsession

When you frenzy, you become obsessed with a single, beautiful thing, unable to think of anything else. Pick one feature of the scene, such as a person, a song, a striking blood splatter, or a work of art. You can barely look away from it, and if spoken to, you talk about only about that subject. All tests not related to enjoying, praising, or protecting it suffer a dice penalty equal to your generation modifier. This frenzy can end early if the object of your obsession is destroyed or leaves the scene, slipping beyond your perception.

Discipline Powers

Adrian's Disciplines are Auspex, Celerity and Presence, which give him access to unique powers.

AUSPEX

Heightened Senses

1-dot Mental Auspex

ACTIVATE	ATTRIBUTE	COST
Minor action	Wits	1 Willpower
DIFFICULTY	DISTANCE	DURATION
None	Self	One scene

You enhance your senses to extreme degrees, doubling your normal range of hearing, sight, and smell. While this power is active, you gain a bonus equal to your dots in this Discipline to your Awareness and Investigation tests. However, if you are exposed to loud noises, bright lights, or overpowering smells, you must succeed on a **DEXTERITY + WITS** test against a Difficulty determined by the intensity of the sensory input or suffer a -2 dice penalty to all perception-based tests until the end of the scene.

CELERITY

Cat's Grace

1-dot Physical Celerity

ACTIVATE	ATTRIBUTE	COST
Minor action	Dexterity	1 Vitae
DIFFICULTY	DISTANCE	DURATION
None	Self	One scene

You can walk and even run across ledges and wires effortlessly, keeping your balance on the slimmest of supports. You automatically succeed on Dexterity tests to keep your balance while moving across ledges, wires, and other narrow supports. The surface you move across must still be able to support your weight.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

- : You can run up and along walls, ledges, and other vertical surfaces.
- : You can run up and along ceilings.
- : You can run across water.

When moving across a wall, ceiling, water, or other vertical, upside down, or non-solid surface, you must start and end your turn upright on a solid surface. If you end your turn on a wall, ceiling, or water, you fall (or sink) unless you have a means of clinging to that surface or staying afloat.

Impassion

1-dot Social Presence

ACTIVATE	ATTRIBUTE	COST
Action	Manipulation	1 Willpower
DIFFICULTY	DISTANCE	DURATION
Composure	Short	One scene

You supernaturally manipulate one non-animal target you can see within a Short distance, causing it to feel an emotion strongly. Describe the emotion and what you hope to make the target feel. If the target is unwilling, make a Power test against its Composure. On a success, the target suffers the [Emotional] condition and feels the emotion you described. This power ends early on a target if it is cured of the [Emotional] condition or starts its turn more than Medium distance away from you.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

●●: When you activate this power, you can target up to 3 additional non-animal targets for each dot you have in this Discipline. You make your test against the strongest member of the group, and all targets suffer the same emotion.

●●●: While this power is active, you can use an action and spend 2 Willpower to throw one affected mortal target into an emotional crisis. Make a Power test against the target's Composure. On a success, the target gains the [Greater Emotional] condition, and its emotions boil out of control for the duration of this power, or until the [Greater Emotional] condition is reduced to [Emotional] or cured. The details are up to the Storyteller; an irritated target might spend its turns punching anyone nearby, a sad one might burst into tears, or a lustful one might aggressively pursue someone nearby.

●●●●●: You can now target a vampire with the emotional crisis. On a success, the vampire suffers a frenzy instead of a crisis. The Storyteller decides the type of frenzy based on the situation and the emotion.

PRESENCE

Redirect Desire

2-dot Social Presence

ACTIVATE	ATTRIBUTE	COST
Action	Manipulation	2 Willpower
DIFFICULTY	DISTANCE	DURATION
Composure	Short	One scene

Your dominion over emotions grows so strong that you can manipulate others' desires, changing their intentions and actions. You might make a target desire another person in the room, crave a beer, or want to wander off to another part of the room.

Make a Power test against the target's Composure. On a success, the target's intentions and goals shift toward the desire you choose, and it suffers a -2 dice penalty to all tests not related to its new desire.

Mortals can't normally resist this power, unless you try to shift a mortal's intentions or passions against its core beliefs, such as making a hunter attacking a vampire give up and befriend its target. You can't shift a person's desire toward something that would directly and obviously harm to it or its loved ones.

MATURING

Once you have more than 2 dots in this Discipline, you can use this power in new ways:

●●●●: You can affect a number of targets equal to half your dots in this Discipline
