ITEMS

Hunting Rifle (ranged, Medium Firearm): 3 damage, up to Long distance

Multiple ID cards with various identities

Machete (melee, Light Melee): 2 damage

DISCIPLINES

ANIMALISM

- * **Bestial Instinct.** Sense the unnatural.
- * **Feral Claws.** Gain an animal's claws or fangs.

CELERITY

- * **Rapid Reflexes.** Become difficult to hit.

POTENCE

- * **Soaring Leap.** Enhance your jump.

LIFEPATHS

Hunter. You were a hunter accustomed to tracking prey, setting traps, and surviving in areas where your quarry hid.

Hound. You were the muscle for the local vampire authority.

CLAN TRAITS

Feral Whispers. You can communicate with animals, and animals aren't immediately put off by your unnatural presence.

Safety of the Earth. When you enter daysleep or torpor, you can choose to meld into natural earthen, grassy, or stone surfaces.

MERITS

Hunger Strength. Hunger has the power to awaken the Beast inside you, lending you its supernatural strength.

FLAW

Loner. You hate having to depend on others and avoid asking for help as much as you can.

NATURE

Survivor. You always pull through, surviving whatever the world throws at you.

Outburst: Survivor's Instinct

BEAST

Gangrel Beast: Animalistic. Your Beast desires only that you live by your instinct, seeking the thrill of the hunt whenever you can.

Gangrel Frenzy: Feral Impulses. When you frenzy, your Beast's instincts get the best of you, and you start acting in a more animalistic way.

DIANE'S DETAILS

More detailed descriptions of the powers and abilities that appear on Diane's character sheet.

LIFEPATHS

Diane's professions and life experiences and the directions his life and unlife have taken her.

Hunter

You know how to track prey, set traps, and survive in the areas where your quarry is located. You might have grown up near the wilderness, or you might have just hunted for sport. Either way, you understand your quarry's behavior and use it to your advantage.

- **Skills:** Awareness, Craft (Traps), Fighting, Shooting, Survival (Wilderness Hunting)
- **Resources:** Physical Asset (Haven), Social Asset (Ally: Fellow hunter), Physical Asset (Repository: Armory)

Hound

You can also use this [lifepath] to represent a Sweeper or Ductus. You were the muscle for the local authority, using your martial training and limited authority to keep the domain safe and make others follow the rules. Whether you wielded that power wisely or abused it is up to you, but other vampires will resent you either way.

- **Skills:** Fighting, Investigation (Streetwise), Shooting, Subterfuge, Survival (Urban Tracking)
- **Resources:** Social Asset (Status: Sect), Physical Asset (Repository: Armory), Social Asset (Contact: Vampiric Authority)

MERITS

Diane's natural talents and unique characteristics..

Hunger Strength

Prerequisites: *Duskborn or vampire.*

Hunger awakens the Beast inside you, lending you its supernatural strength. You gain a +1 dice bonus to Strength tests, including tests made during a physical conflict, when you have 5 or less Vitae.

Activation. When you make such a test, you can activate this [merit] as a reaction for a basic success.

CLAN TRAITS

Diane's supernatural talents, inherited from their blood.

Feral Whispers

Prerequisites: *Neonate or stronger. At least 1 dot in Animalism.*

You can communicate with animals, and animals aren't immediately put off by your unnatural presence (see **Vampire Characteristics** in *Chapter 2: Making Your Monster*). When communicating with animals, you can address only one animal family (such as canidae, corvidae, felidae, or muridae) at a time. For example, you could address a group of corvids, which includes ravens and jays, but you would need to repeat yourself in different "languages" if you wanted to speak with a mixed flock of ravens, songbirds, and seagulls. You can't use this power through electronic devices.

If you have at least 3 dots in Animalism, you can address a number of different animal families at one time equal to your dots in Animalism, provided the animals are within range of your voice.

Safety of the Earth

Prerequisites: *Neonate or stronger.*

When you enter [daysleep] or torpor, and you are in contact with a natural earthen, grassy, or stone surface, such as a grassy park or a rocky cliff (but not the stone floor of a castle), you can choose to meld into that surface. The earth there must be big enough to contain your body, but your point of contact with that earth when this effect is triggered can be as small as your fingertip. It takes one turn for you to sink into the earth, leaving behind carried objects (other than basic clothing) atop the soil. While in the earth, you aren't aware of your surroundings, unless you can normally be aware of your surroundings while in [daysleep] or torpor, and you are protected from sunlight and other effects on the surface, like rain or a forest fire.

The effect ends when you rise for the night, when torpor ends, or when the earth where you are resting is disturbed, such as from a machine digging up the soil or a flood washing away the earth around you. When the effect ends, you slowly rise out of the soil, earth and dirt cascading down from your prone body.

NATURE

Diane's nature, the mortal impulses at their core, and its associated outburst.

Survivor

As a Survivor, you always pull through, surviving whatever life or unlife throws at you. Alone or in a group, your sheer refusal to accept defeat is often the difference between success and failure. You are frustrated by the way others accept "what fate has in store," and you fight constantly to hold or improve your position in the world.

Indulging. You are always preparing for the next threat, whether it is real or not. You act to secure your survival, refusing what you see as unnecessary risks. You help others pull back from the brink of their own ruin.

Survivor Outburst: Survivor's Instinct. The situation is dangerous, and you must survive it. You can't use social Discipline powers, and you must focus on defending yourself. Your heightened alertness to every threat leaves your attention split, making it hard for you to do anything other than survive the situation intact. You gain a dice bonus equal to your generation modifier to tests to defend yourself, escape danger, or hide, but you suffer a dice penalty equal to twice your generation modifier to attack rolls, offensive tests, and tests that would draw extra attention to yourself.

CLAN ASPECTS

Diane is part of the Gangrel vampire clan, which comes with great power but also a curse.

Clan Beast: Animalistic

Gangrel's Beast is simple and animalistic. It desires only that you live by instinct, seeking the thrill of the hunt whenever you can. You satisfy its urges through animalistic behavior, running with wolves, hunting prey like a predator, and reacting on instinct to threats and opportunities.

Curse: Embraced Beast

Gangrel are closer to their Beast than most vampires, and that closeness is what lets them connect so readily with animals. It also leaves its mark on any Gangrel who loses control. When a frenzy or Nature outburst ends, your bond with the animal world manifests physically, giving you one or more animalistic characteristics until the end of the next night. You gain a number of characteristics equal to your generation modifier, though you can reduce this number by 1 if you ride the wave and accept the frenzy or outburst.

Each characteristic reduces one of your Attributes by 1, to a minimum of 1. These penalties are additive, and repeated frenzies and outbursts can leave you with severely reduced Attributes and a monstrous, disjointed form. This might manifest as a bearlike musk reducing your Charisma or a single reverse knee reducing your Dexterity. The characteristic and its penalty are up to you and the Storyteller, but they typically reflect the events of the frenzy or outburst, both what caused it and what you did while in its grip.

Frenzy: Feral Impulses

When you frenzy, your Beast's instincts get the best of you, and you begin to act on impulse. Thinking clearly and rationally becomes harder, as you just want to rip apart what's in your way, solving every problem as directly as possible. You suffer a penalty equal to your generation modifier to all tests in which you aren't acting as an animal would, and you suffer twice that penalty to tests that use the Intelligence or Manipulation Attributes, unless those tests are against animals.

Discipline Powers

Diane's Disciplines are Animalism, Celerity, and Potence, which give them access to unique powers.

ANIMALISM

Bestial Instinct

1-dot Mental Animalism

ACTIVATE	ATTRIBUTE	COST
Action	Wits	1 Willpower
DIFFICULTY	DISTANCE	DURATION
None	Self	One scene

You hone your senses, becoming more in tune with your Beast and instinctively noticing the presence of the supernatural. You can sense other vampires and supernatural beings within Short distance, even when you aren't actively searching for them.

While this power is active, you can add your dots in this Discipline to any Awareness or Investigation tests that involve a supernatural presence. This power can't help you sense creatures that are supernaturally hidden, such as a vampire using an Obfuscate power to conceal itself.

Feral Claws

2-dot Physical Animalism

ACTIVATE	ATTRIBUTE	COST
Minor action	Strength	2 Vitae
DIFFICULTY	DISTANCE	DURATION
None	Self	One scene

You reach to your Beast and borrow its ferocity, turning your nails into sharp claws, extending your mouth into a feral maw, or making a similar transformation. For the duration of this power, your unarmed attacks with this transformed weapon inflict damage equal to your dots in Strength.

MATURING

Once you have more than 2 dots in this Discipline, you can use this power in new ways:

●●●●● ●: Your unarmed attacks with this power inflict baneful damage instead of normal damage.

CELERITY

Rapid Reflexes

1-dot Physical Celerity

ACTIVATE	ATTRIBUTE	COST
Minor action	Dexterity	1 Willpower
DIFFICULTY	DISTANCE	DURATION
None	Self	One turn

Your supernatural speed and agility make you a hard target to pin down and help you avoid attacks. You gain a +1 dice bonus to Dodge defense tests for the duration.

When you use this power, make a Power test against a Difficulty of 0. The power lasts for a number of additional turns equal to the successes you obtain.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

- : The bonus increases to +2 to Dodge tests.
- : The bonus increases to +3 to Dodge tests.
- ●●: The bonus increases to +4 to Dodge tests.

POTENCE

Soaring Leap

1-dot Physical Potence

ACTIVATE	ATTRIBUTE	COST
Minor action	Strength	1 Vitae
DIFFICULTY	DISTANCE	DURATION
None or Stamina	Self	One turn

You focus your supernatural strength into your legs, enhancing your ability to jump. For the duration, you can jump anywhere within Short distance, leaping over obstacles and even creatures with ease. In addition, if a jump would require a test, such as leaping over a very large obstacle or up to another floor, you reduce that test's Difficulty by your dots in this Discipline.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

- : You can spend 1 Willpower when you leap to land with great force. When you land, make a Power test against the Stamina of each target within Close distance. On a success, that target is knocked prone.
