MERITS

Leonardo's natural talents and unique characteristics.

Intimidating Presence

You have an intimidating presence that inspires fear and unease in anyone who can see you. You gain a +1 dice bonus to tests that involve intimidating others or unsettling them, provided the target can see you.

Activation. When you make such a test, you can activate this [merit] as a reaction for a basic success.

CLAN TRAITS

Leonardo's supernatural talents, inherited from his blood.

Shadow Cloak

Prerequisites: Neonate or stronger. At least 2 dots in Oblivion.

Shadows coalesce around you, giving you a bonus equal to your generation modifier to tests related to hiding or sneaking and to tests to frighten or coerce mortals.

Activation. When you make such a test, you can activate this [trait] as a reaction for a basic success.

Tenebrous Reach

Prerequisites: Neonate or stronger. At least 1 dot in Oblivion.

You can command nearby shadows within Short distance of you to perform simple actions, such as opening doors and pulling levers. These shadows can do anything that can be done with a minor action, but they can't activate Discipline powers or perform tasks as advanced as typing or controlling a vehicle. You can't use this [trait's] effects while the target area or object is in bright light.

NATURE

Leonardo's nature, the mortal impulses at his core, and its associated outburst.

Autocrat

As an Autocrat, you want to be in charge. You seek prominence for its own sake, not because you have an operation's best interests at heart or because you have the best ideas (though you often think you do). You may genuinely believe everyone around you is incompetent, but what you truly crave is power and control.

Indulging. You order others around you as though you are in command. You cast yourself as the leader. You wave off others' suggestions as plainly beneath your standards. You make decisions for others without consulting them.

Autocrat Outburst: Listen to Me. Others simply aren't following your directions, so you have to take control. You can't use physical Discipline powers, and you must convince others to do as you say. Pick two targets you can see, at least one of them an NPC. On each of their turns, you dictate what each target should do. For every target that spends its turn doing otherwise, you suffer a dice penalty equal to your generation modifier to all tests.

CLAN ASPECTS

Leonardo is part of the Lasombra vampire clan, which comes with great power but also a curse.

Clan Beast: Punisher

The Beast in your blood despises failure, and it seeks to punish and humiliate those that fail you. You satiate it by punishing those who fail at the tasks assigned to them, humiliating those you consider beneath you, and turning that punishment on yourself when you are the one who made a mistake.

Curse: Shadow Presence

Your connection with the shadows of the Abyss interferes with your reflection in mirrors or recordings of any kind. An image of you caught by a security camera appears blurred, obscured, or affected by strange interferences. Anyone familiar with the clan's curse can easily identify what is going on, but most mortals write off the distortion as a technical fault.

This connection also disrupts your ability to use anything more technologically complex than a pulley or a padlock, especially devices with a computer chip or similar technology. The first time you attempt to use such a device in a given night, you fail unless you succeed on an Intelligence or Charisma test (your choice) with a Difficulty equal to twice your generation modifier, using your mental strength or force of personality to overcome the disruption. Once you have made this test, you can't make it again for that device until the next night.

Frenzy: Ruthlessness

When you frenzy, your tolerance for mistakes and incompetence drops to nothing, and you will do anything to correct the errors you make. While in this frenzy, any time you fail a test, you suffer a dice penalty equal to your generation modifier to all tests until you succeed on a later test or the frenzy ends. You also can suffer this penalty if an ally within Short distance of you suffers a painful failure. In that case, the penalty lasts until you or your ally succeeds on another attempt of that same action or the frenzy ends.

Discipline Powers

Leonardo's Disciplines are Dominate, Oblivion and Presence, which give him access to unique powers.

DOMINATE

Command

1-dot Mental Dominate

ACTIVATE	ATTRIBUTE	COST
Action	Manipulation	1 Willpower
DIFFICULTY	DISTANCE	DURATION
Resolve	Short	One night or until completed

You give a simple, one-sentence, verbal command to a non-animal target you can see within Short distance. The target must be able to hear you and understand the language you speak. Make a Power test against the target's Resolve. On a success, the target must obey the command. This power suppresses the target's mind, desires, and sense of self, effectively turning it into a semi-autonomous puppet, limited to basic actions and to literal interpretations of your command.

The target can't be commanded to tell you its life story, secrets, hidden knowledge, or darkest desires, as such deeper thoughts and memories are suppressed by this power. Nor can it infer subtle meaning behind your command. A vague command of "take me to your leader" is as likely to have a ghoul worker take you to its vampire master as to take you to its manager at work, depending on where it is when you ask. The command can't force the target to do something harmful to itself or to put itself in direct danger.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

●●●: You can target up to 3 additional non-animal targets for each dot you have in this Discipline. You make your test against the strongest member of the group, and all targets receive the same command.

●●●●●: The command can force a target or targets to do something harmful to itself or to put itself in direct danger.

OBLIVION

Shadow Tools

1-dot Physical Oblivion

ACTIVATE	ATTRIBUTE	COST
Action	Dexterity	1 Vitae
DIFFICULTY	DISTANCE	DURATION
None	Close	One scene

You manipulate nearby shadows, compressing them into useful forms and creating tools and small objects of solid shadow. You can create a number of simple objects, tools, or garments equal to your dots in this Discipline. These objects can have no complex mechanical parts, can't be weapons, and must be no larger than yourself. Each acts as its real counterpart, as long as it remains in shadow, and disappears when exposed to bright light.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

●●●: You can create weapons, though not any that require ammunition.

Grasping Shadows

2-dot Physical Oblivion

ACTIVATE	ATTRIBUTE	COST
Action	Intelligence	2 Vitae
DIFFICULTY	DISTANCE	DURATION
Dexterity	Short	One scene

Your command over shadows grows so strong that you can now make a target's own shadow physically grasp its owner. Make a Power test with a Difficulty equal to the target's Dexterity. On a success, the target suffers the Held condition. On its turn, the target can use an action to try to break free, and you must succeed on a Power test to stop it; on a failure, the target ends the condition on itself.

While this power is active, you can use an action to make the shadow tighten its hold. Treat this as a crush attack as though you were [tussling] the target, making a Power test against the target's Dexterity. The damage inflicted is equal to half your dots in this Discipline, plus 1 per extra success. This power ends early if the shadow is touched by sunlight.

PRESENCE

Dread Gaze

1-dot Social Presence

ACTIVATE	ATTRIBUTE	COST
Action	Charisma	1 Willpower
DIFFICULTY	DISTANCE	DURATION
None or Composure	Medium	One scene

Your dreadful gaze fills a target you can see within Medium distance with the sense that you are judging its every action. The target suffers a -1 dice penalty to all tests while it can see you. This power ends early if you end your turn unable to see the target, or if you end your turn more than Medium distance from it.

MATURING

Once you have more than 1 dot in this Discipline, you can use this power in new ways:

- : The target feels fear while under your gaze. While you can see each other, you can spend 1 Willpower as a reaction at the start of each of the target's turns and make a Power test against the target's Composure. On a success, the target suffers the Scared condition until the start of its next turn.
- : The target feels fear while under your gaze. While you can see each other, you can spend 1 Willpower as a reaction at the start of each of the target's turns and make a Power test against the target's Composure. On a success, the target suffers the Scared condition until the start of its next turn.
- : You can now affect targets you can see or hear and who can see or hear you.
